

Designing out waste is a waste of time?

A Contractor's View

What does less waste mean to the contractor?

- Improved site tidiness
- Reduced requirement for skips
- Improved efficiency
- Potential programme savings
- Potential improvements in quality
- Cost Savings
- Improved value for money

How can Designers help

- Ensure Clients are aware of benefits
- Dimension to suit standard units
- Consider off site prefabrication
- Consider space for recycling bins
- Reduce variations
- Encourage use of sustainable materials
- Early involvement of supply chain
